

optimum.

Nice to meet you!

I'm a representative from Optimum, and I'm excited to tell you that our 100% Fiber Internet network is coming to Montclair. Enjoy speeds up to 8 Gig and 99.9% network reliability.

As part of the construction process, we'll need access to your backyard pole to build our Fiber Internet network.

Not to worry, our crews will be wearing identification with their names and photos visible on the front of their uniforms. They will also be accompanied by Montclair Police during the construction.

Thank you again and we apologize for any inconvenience.
